

Redbricks teacher training course was very productive. I learned lots of things in the course. The faculty is highly experienced and knows how to engage with the students in the classroom and provide a wonderful learning experience. The content was an excellent mix of theory and practice.

- Parul Srivastava

OPPORTUNITIES

- Students can explore careers in pre-school/pre-primary school education, as well as opportunities at government and NGO level. This program can also immensely benefit mothers in understanding and guiding their young children

A UNIQUE OPPORTUNITY TO BECOME A PRE-SCHOOL TEACHER
And Pursue **Parallel Study** at Redbricks Training Program In

- Combination of Faculties from varied backgrounds

**REDBRICKS TRAINING PROGRAM (RTP)
IN EARLY CHILDHOOD CARE & EDUCATION
(ECCE)**

यथा इच्छेसी तथा करुं

- Bhagavada Gita

"We should place before the pupil the best that has been thought and said on any particular subject and then leave it to him to reflect and decide."

Redbricks Education Foundation was established with a missionary purpose of creating the change leaders of tomorrow's India.

Integral to our mission is the development of innovative and passionate educators and leaders who can contribute towards such a larger purpose for the society.

Redbricks Education Foundation has taken a step in this direction and aspires to offer an incubating platform for training and preparing the future cadre of young professionals for our education sector.

It's been a great learning experience. I have learnt to be more patient with children and try to think from their perspective rather than follow what's already known. The course has been a bench mark for me in my life as it has changed a lot in and around me. Thanks to Redbricks!

- Esther Ajit

REDBRICKS TRAINING PROGRAM IN EARLY CHILDHOOD CARE & EDUCATION (RTP - ECCE)

Redbricks Education Foundation has designed a holistic and experiential Training Program in Early Childhood Care and Education, for professionals to work with children up to eight years of age.

This program will help participants to become highly effective early childhood educators.

Young mothers would also benefit from this program by learning the skills and techniques of raising young children in an effective manner.

PROGRAM OBJECTIVES

By the end of this program, students will be able to -

1. Develop insights into the process of child development and learning
2. Understand the rights and developmental needs of children from birth to the age of 8 years
3. Understand concepts, principles & approaches in early childhood curriculum design and engage in effective curriculum planning
4. Implement developmentally appropriate, play and activity based early childhood programs
5. Understand the appropriate methods of assessing and evaluating young children leading to optimal outcomes
6. Develop knowledge in classroom management & setting up of physical environment to effectively facilitate children's development
7. Understand the benefits and ways of collaborating with parents, families and community towards the benefit of young children
8. Recognize the need to be a reflective practitioner and teacher
9. Respond to the verbal & non-verbal cues of children with care and sensitivity
10. Identify the need to appreciate, respect and optimize the individuality of every child

PROGRAM MODULES

- Growth & Development of Young Children • Early Childhood Care and Education • Curriculum & Pedagogy
- Exploration of the Arts • Guiding Young Children
- Assessment & Evaluation • Pre School Management
- Reflective Practice • Observation & Practice Teaching

DURATION : 10 Months, Part-time

TIMINGS : 2:30 pm to 4:40 pm (3 Days/week)
Mon / Wed / Fri

(Plus 2 hours per week observation and practice teaching at Redbricks EYC & Kindergarten for non-working participants)

OUR METHODOLOGY

- Presentations • Small and Large Group Discussions
- Classroom Observations in schools • Practice Teaching in schools • Expert Sessions • Seminars • Case Study Discussions • Simulations, Games and Exercises
- Institutional Visits • Book reviews, reading and research
- Use of Information Technology • Video Recordings • Film screenings and discussions

Eligibility Criteria

- High School Graduates (12th Pass) from any discipline can apply • Minimum age criteria - 20 years • Participants should be proficient in English communication
- Successful completion of admission test and interview

Participants

- Working or Aspiring Teachers (Pre-school to Grade 2)/ Supervisors from various schools • Young Mothers wanting to learn and develop better parenting skills • Professionals working with young children or for their development in any sector • Freshers wanting to enter into teaching/work with young children

Observation & Practice

Observation and Practice teaching provides the participants an opportunity to connect theory with practice and develop context specific understanding related to the development of children.

As part of RTP - ECCE, students (those who are not working in any pre-school) will get an opportunity to observe and develop their skills in teaching young children through practice teaching in different classes of Redbricks EYC & School for learning first hand about children's development, interests, and abilities.
